

### REMARKS

Claim 94 is amended to replace the phrase "two phase flow" with "mixture." The application characterizes the two phase flow as a mixture at, for example, page 19, lines 16-17, and page 20, lines 4-5. Accordingly, no new matter is introduced by this amendment, and entry thereof is requested. Upon entry, claims 35-76 and 94-121 are active in this application.

The allowance of claims 35-76 and 94-121 in the previous Notice of Allowance is appreciated. As explained to Examiner Chaudhry during a conversation with Applicants' below-named representative on May 25, 2004, the enclosed Request for Continued Examination is being filed in order to submit additional references in the form of an Information Disclosure Statement. Enclosed with this amendment is the Information Disclosure Statement and copies of the references.

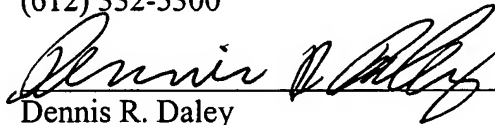

It is believed that this application is in condition for allowance. Early notice to this effect is earnestly solicited.

Respectfully submitted,
